

Environmental Assessment and Section 4(f) Evaluation

IH 30

From Sylvan Avenue to IH 45

and

IH 35E

From Eighth Street to Empire Central

Dallas County, Texas

CSJ: 0009-11-181, 0196-03-199, 0196-03-205, 0442-02-132, 1068-04-116

U.S. Department of Transportation – Federal Highway Administration

and

Texas Department of Transportation

January 2005

TABLE OF CONTENTS

Chapter 1: Purpose and Need for the Project.....	1
A. PURPOSE OF THE PROPOSED PROJECT	1
B. NEED FOR THE PROJECT	1
C. OBJECTIVES OF THE PROJECT.....	4
D. FOCUS OF THIS ENVIRONMENTAL ANALYSIS	5
D.1. Planning Process.....	5
D.2. Related Studies and Relevant Documents.....	6
D.3. Issues Studied in Detail.....	6
D.4. Issues Eliminated from Further Study	8
E. APPLICABLE REGULATORY REQUIREMENTS AND REQUIRED COORDINATION.....	11
Chapter 2: Description of the Alternatives	13
A. PROCESS USED TO DEVELOP THE PROJECT ALTERNATIVES.....	13
B. REQUIREMENTS FOR AND BENEFITS OF ALTERNATIVES	14
B.1. Principal Design Requirements.....	14
B.2. Desired Design Benefits.....	14
B.3. Environmental Protection and Enhancement Requirements	15
C. ALTERNATIVES ELIMINATED FROM DETAILED STUDY	15
D. DETAILED DESCRIPTION OF REASONABLE ALTERNATIVES	16
D.1. No-Build Alternative	17
D.2. Build Alternative.....	17
E. DESCRIPTION OF OTHER RELEVANT ACTIONS	26
Chapter 3: Affected Environment and Environmental Consequences	29
A. LAND USE	29
A.1. Existing Environment	29
A.2. Environmental Consequences of Implementing the No-Build Alternative	29
A.3. Environmental Consequences of Implementing the Build Alternative	30
B. PARKLAND	31
B.1. Existing Environment	31
B.2. Environmental Consequences of Implementing the No-Build Alternative	31
B.3. Environmental Consequences of Implementing the Build Alternative	31
C. HISTORIC RESOURCES	31
C.1. Existing Environment	31
C.2. Environmental Consequences of Implementing the No-Build Alternative	35
C.3. Environmental Consequences of Implementing the Build Alternative	35
D. AIR QUALITY	36
D.1. Existing Environment	37
D.2. Environmental Consequences of Implementing the No-Build Alternative	39
D.3. Environmental Consequences of Implementing the Build Alternative	40
E. NOISE	40
E.1. Environmental Consequences of Implementing the No-Build Alternative	42
E.2. Environmental Consequences of Implementing the Build Alternative	42
F. ACCESS.....	45
F.1. Existing Environment	45
F.2. Environmental Consequences of Implementing the No-Build Alternative	45
F.3. Environmental Consequences of Implementing Build Alternative.....	45
G. WETLANDS AND WATERS OF THE U.S.	47
G.1. Existing Environment	47

G.2. Environmental Consequences of the No-Build Alternative	47
G.3. Environmental Consequences of the Build Alternative	48
H. CONSIDERATIONS RELATING TO PEDESTRIANS AND BICYCLES	50
H.1. Existing Environment	50
H.2. Environmental Consequences of Implementing the No-Build Alternative	50
H.3. Environmental Consequences of Implementing the Build Alternative	50
I. VISUAL IMPACTS	51
I.1. Existing Environment	51
I.2. Environmental Consequences of Implementing the No-Build Alternative	51
I.3. Environmental Consequences of Implementing the Build Alternative	51
J. CONSTRUCTION IMPACTS	51
J.1. Existing Environment	51
J.2. Environmental Consequences of Implementing the No-Build Alternative	51
J.3. Environmental Consequences of Implementing the Build Alternative	52
K. SUMMARY AND COMPARISON OF POTENTIAL EFFECTS	52
Chapter 4: Recommendation of the Preferred Alternative	54
A. IDENTIFICATION AND RATIONALE FOR THE PREFERRED ALTERNATIVE	54
A.1. Preferred Alternative	54
A.2. Support Rationale	56
A.3. Mitigation and Monitoring Commitments	56
A.4. Recommendation for Alternative Selection and for a FONSI	60
Appendix A Corridor Land Use	A-1
Appendix B Agency Coordination	B-1
Appendix C Draft Section 4(f) Evaluation	C-1
Appendix D Potential Displacements	D-1
Appendix E Environmental Justice Analysis	E-1
Appendix F Dallas County Federal and State Listed Threatened/Endangered Species of Concern	F-1
Appendix G Hazardous Materials Specific Concerns	G-1
Appendix H Wetland Data Sheets	H-1

List of Tables

Table 1.1	Traffic Accidents, 1997 - 1999.....	3
Table 1.2	Current and Forecasted Traffic Volumes.....	4
Table 2.1	Number of Lanes in the Build Alternative	23
Table 2.2	Project Pegasus Proposed Improvements Included in the State Transportation Improvement Program (STIP)	23
Table 2.3	Actions of the Build Alternative in Relation to Project Objectives.....	23
Table 3.1	Historic Properties Evaluation	32
Table 3.2	National Ambient Air Quality Standards.....	36
Table 3.3	Comparison of <i>Mobility 2025 Update – 2004 Update</i> and the Proposed Design	37
Table 3.4	Corridor Traffic Volumes from Mobility 2025 (Original and Updated Plan).....	39
Table 3.5	Predicted Carbon Monoxide Levels	40
Table 3.6	Common Sound/Noise Levels.....	41
Table 3.7	FHWA Noise Abatement Criteria (NAC).....	41
Table 3.8	Traffic Noise Levels, L_{eq} (dBA)	43
Table 3.9	Noise Barrier Analysis.....	44
Table 3.10	Noise Impact Contour Limits	45
Table 3.11	Proposed Ramp Modifications	46
Table 3.12	Potential Build Alternative Impacts to Waters of the U.S.	48
Table 3.13	Comparison of Alternatives: Ability to Attain Project Objectives	52
Table 3.14	Comparison of Alternatives: Effect on Relevant Issues and Resources	53
Table 4.1	Mitigation and Monitoring Commitments	57
Table E.1	Project Area Race and Ethnicity Characteristics	5
Table E.2	Project Area Poverty and Income Characteristics	6
Table E.3	Estimated Number of Employees at Potential Commercial Displacements	7

List of Figures

Figure 1-1	Project Location	2
Figure 2-1	Typical Section	18
Figure 2-2	Typical Section	19
Figure 2-3	Typical Section	20
Figure 2-4	Typical Section	21
Figure 2-5	Typical Section	22
Figure 3-1	Noise Receivers and Historic Properties	34
Figure C-1	Stemmons Park and Proposed Right-of-Way Needed from Park	C-4
Figure C-2	Stemmons Park Photographs	C-5
Figure C-3	Avoidance Alignment	C-7
Figure E-1	Census Tracts and Block Groups.....	E-4
