

## Notice of the Availability of the Finding of No Significant Impact

This notice is to advise the public that the Federal Highway Administration (FHWA) has issued a Finding of No Significant Impact (FONSI) for the proposed extension of Spur 366, commonly known as the Woodall Rogers Freeway, with improvements along Industrial Boulevard and Beckley Avenue in Dallas County, Texas. The proposed improvements are from IH 35E to the Beckley Avenue/Singleton Boulevard intersection, a distance of approximately 1.03 miles. The limits of the Industrial Boulevard improvement extend approximately 500 feet south and approximately 500 feet north of the Spur 366 centerline. The limits for the Beckley Avenue improvements extend south to the Union Pacific Railroad crossing and north to Gulden Lane. The purpose of the proposed Spur 366 extension is to address long-term transportation solutions for this corridor and for the western portions of the City of Dallas and Dallas County. The project encompasses interconnecting cross-streets, associated direct connections, and access ramps involving Industrial Boulevard and IH 35E.

Copies of the FONSI; approved Environmental Assessment (EA); Summary and Analysis of the April 26, 2005, Public Hearing; Responses to Public Comments; and Certification of Public Involvement for this project are available for public inspection and reproduction at the Texas Department of Transportation (TxDOT) Dallas District Library, 4777 E. Highway 80, Mesquite, TX 75150. For further information, please contact Mr. Timothy M. Nesbitt, P.E., Project Manager at: TxDOT, P.O. Box 133067, Dallas, Texas 75313-3067, 214-320-6100.
